4. Read the following passage carefully and answer the questions that follow :

The elephant is a huge animal. It is the strongest animal living. It has a big body, fat legs, large hanging ears, but its tail is thin and small. It has a long nose called the trunk. This is the special feature of the elephant. It does the work of our arms and legs. There are two little eyes on either side of it. The elephant is a very clever animal. Therefore though it is wild by nature, it is caught and tamed to be used in various ways. It can carry very heavy loads on its back. In olden days, the Rajas, in India, used them. Though it can be a dangerous enemy, it becomes a good friend to human beings.

Questions :
