4. Read the following passage carefully and answer the questions that follow :

I was in America last October to visit my uncle's family. There I learnt about an interesting American holiday. It was the festival of Halloween celebrated on October 31.

On Halloween, people carve pumpkins with knives and make funny faces on them. These are called 'Jack-O-Lanterns'. Children wear special costumes so that they look like witches, ghosts or clowns. They go to many houses, knock on the door and say, 'Trick or Treat !' It means that if people don't give them a treat, the children will play some kind of trick on them. Usually people give candy to them. So the holiday involves all members of the family and also many neighbours.
