Write an essay on any *one* of the following topics :

1. Population Explosion
2. Deforestation
3. National Festivals.

IX. Read the following passage carefully and answer the questions that follow :

5 × 1 = 5

Socrates was the greatest Satyagrahi that the world has ever known. The search for truth, and the defence of truth when found, were the great objects of his life. He was put to death by the people of his own country because they felt that his teachings were too disturbing. He would never accept a thing because it has always been so, nor because, everybody believes it ? He wanted to find out whether it was true and good, only when he felt sure of that, would he accept. He did not try to stir people by public speeches, but when they came to him he asked them questions which made them think. So, after sometime, the orthodox people of Athens accused him of corrupting the youth and of teaching people to disbelieve in the Gods and after a public trial he was condemned to death. According to Greek custom at that time, he was made to drink poison.

Questions :

1. What were the great objectives of Socrates' life ?
2. Find out the opposite of the words from the passage :
  - a) false
  - b) reject.
3. Why was Socrates put to death ?
4. How did he make the people to think ?
5. What was he accused of ?
