Black Money

In India, **black money** refers to funds earned on the black market, on which income and other taxes have not been paid. The total amount of black money deposited in foreign banks by Indians is unknown. Some reports claim a total of US \$ 1.06 trillion is held illegally in Switzerland. Other reports, including those reported by the Swiss Bankers Association and the Government of Switzerland, claim these reports are false and fabricated, and the total amount held in all Swiss bank accounts by citizens of India is about US \$ 2 billion. In February 2012, the Director of India's Central Bureau of Investigation said that Indians have more illegal funds in foreign tax more than any other country. In March

2012, the Government of India clarified in its Parliament that the CBI director's statement on \$ 500 billion of illegal money was an estimate based on a statement made to India's Supreme Court in July 2011. On 8th November 2016, in a sudden address to the nation, Prime Minister Narendra Modi announced that bank notes of Rs. 500 and Rs. 1000 would cease to be legal tender from midnight. He said this decision was taken to crack down on black money and corruption which is destroying the country. He also said that the process of cash circulation is directly related to corruption in our country impacting the lower classes of our society.
